ALL IN ONE ON-DEMAND FLOWER DELIVERY APP & SOFTWARE SUITE

Get a highly flexible user interface, multiple features, better customer engagement, and much more by opting for the fastest flower delivery app development.

ADMIN PANEL

MANAGEMENT DASHBOARD

Admin can handle and monitor the different activities of the delivery person under the panel with effective and automated tools.

1

USER MANAGEMENT

Facilitates the business owner to manage all activities of users and involved stakeholders for the flower ordering app.

2

CATEGORY MANAGEMENT

The admin panel helps in managing diverse categories of multiple sorts of flowers and every type has a dedicated system.

3

HANDLE COMMISSION

The flower delivery software handles the payment of florist stakeholders, partners, and the special commission to flower purchasers.

4

ANALYTICS INSIGHTS AND ANALYTICS

Get direct access to monitor the total number of consumers, live users and flower service stakeholders to preserve the data.

5

VENDOR PANEL

EASY TO REGISTER

Florists can register or directly sign up with their email addresses or other accounts linked to their social media.

1

SWIFT ORDERING

Explore the order request to explore and view the locality of the request made according to the nearest location.

2

ACCEPT AND REJECT ORDER STATUS

Flower vendors can accept or reject orders based on accessible flowers, location, and online order requests by updating their status.

3

ENABLE CUSTOMIZATION

Facilitate user base to tailor the flower setup with flower order requirements, such as choosing exclusive flowers, decorative packaging, and attaching cards.

4

ACCOUNT PANEL

The flower vendor or service provider can monitor orders made and deliveries provided by easily exploring and going to the account panel.

5

CUSTOMER APP

SEARCH FILTRATION

Allow users to search the flowers or stores they are exploring by simply using the numerous filters accessible on on-demand flower delivery apps.

1

ORDER PLACEMENT

Customers can easily place orders by approaching their preferred online store and getting their flowers delivered to their doorsteps.

2

MULTIPLE PAYMENT GATEWAY

Our flower delivery app development process is blended with numerous payment gateways for a flawless payment procedure.

3

DELIVERY SCHEDULE

Users can effortlessly schedule the timing for the swift delivery of their flowers and location with this feature.

4

TRACK ORDER STATUS

Monitor and track orders on a real-time basis by blending our real-time tracking solutions into the application system.

5
